Please note:

The only nursing courses listed are those that have both a class and clinical component as these are the only ones being affected by this minor change. The only change between the names of the old course and the new courses is to add "clinical" to the course number that has the clinical component. Some courses needed to be renumbered as well.

Rationale for Change

This change was originally suggested by Dean Christine Murray. It has been reviewed by Peter Dove in Registration and Records. This is how many other departments have historically listed their classes that have a lab or clinical component. Splitting and renumbering nursing courses into a class and clinical component would:

- streamline the registration process for students*
- adequately reflect the workload in the Department of Nursing*
- make it easier to hire adjuncts.*
